#### EXCELLENT FEATURES OF MACHINE

- ◆ The capability of continuous control of cutting current
- ◆ Due to the use of a system for control and stabilization of the current, there is no sensitivity against the power line fluctuations (generator based) in Power CUT101A (A-CNC), 161A-CNC and also gas pressure fluctuations.
- ◆ Machine operation capability from -20% up to +15% of power line voltage.
- ◆ Capability of continuous operation at maximum current for 101A, 101A-CNC models (100% duty cycle) and operation at maximum current and 80% duty cycle in 161A-CNC model.
- ◆ Digital display with precise cutting current pre-setting.
- ◆ Intelligent switching from pre-set mode to real-set mode.
- ◆ High speed cutting and excellent cutting quality.
- ◆ Post-gas function which reduces stress on the components and extends the lifespan of consumables.
- ◆ Central torch adapter with safety protection, to avoid accidental contact with live parts.
- ◆ Machine protection in air pressure reduction and IGBT protection against overcurrent.
- ◆ Current protection against wiring disconnection of the transducer.
- ◆ Protection against torch start button short circuiting.
- ◆ Protection against reed switch short circuiting.
- ◆ Equipped with self-restart functions which automatically restarts the arc when there is any air gap in work piece during cutting nets and grids.
- ◆ By automatic ignition system, as soon as the stabilization of the pilot arc, HF system will be disable.
- ◆ Machine deactivation when the short circuit occurs between electrode and nozzle.
- ◆ Equipped with fan control circuit and Thermal protection using NTC.
- ◆ Electromagnetic compatibility(EMC) only in Power CUT101A (A-CNC), 161A-CNC
- ◆ More protection for power semiconductors that caused longer life span of parts even at heavy duty conditions.(only in Power CUT101A(A-CNC), 161A-CNC)

#### Accessories

- ◆ Hose Size 8, 3 meters with metal tightener.
- ◆ Nozzles 1.1, 1.3, 1.6, 1.8 mm.
- ◆ Plasma electrode (4 pieces).
- ◆ Plasma torch (air cooled or water cooled).
- ◆ Earth clamp with cable.

#### Optional

- ◆ Automatic torch
- ◆ HF booster for using water cooled torch longer than 9m.
- ◆ Circular cutting accessory
- ◆ Torch coolant (POWERCUT 161 A-CNC).
